

Every mother and child deserves a safe birth.

Every minute, a woman dies from complications of pregnancy or childbirth.

For every woman who dies, 20 more suffer serious injury, infection or disease—often due to unsanitary birthing conditions—and their children suffer with them.

The good news: *Many of these deaths are preventable, and we can help!*

We are working with **IMA World Health**, the nonprofit organization that created **Safe Motherhood Kits™**, to send clean and sterile birthing supplies to needy clinics in Haiti and Africa.

Just \$25 can save the lives of a mother and her child.

The Safe Motherhood Kit™

Each \$25 kit contains all the new clean and sterile supplies necessary for one safe birth, including essential newborn items.

- Sterile gauze pads
- 1 bar soap
- 1 plastic sheet & underpad
- 1 pair sterile gloves
- 1 sterile umbilical tie
- 1 sterile knife with blade
- 1 new washcloth
- 1 new baby tunic
- 1 new baby hat
- 1 new baby blanket

About IMA World Health

Working in close collaboration with its partners, IMA has since 1960 reached out to the most vulnerable people in the developing world. In countries ravaged by war and poverty, IMA's medicines, programs and training have made a significant impact for parents and their children, fostering hope through health and healing where it matters most. www.imaworldhealth.org
